Description. Foster critical thinking and visual literacy in the Art Appreciation course. A World of Art, Seventh Edition introduces students to art with an emphasis on critical thinking and visual literacy. Henry Sayre wrote A World of Art because he wanted to use a text in his own course that truly represented all artists, not just the Western canon found at that time in other texts.

~~Sayre, World of Art, A, 7th Edition | Pearson~~

In this visually stunning high definition production, A World of Art, the magnificence of America's premier art museum lights up the screen. One of the architectural glories of New York, the Met stretches 1000 feet along Fifth Avenue. Inside is a dazzling three dimensional encyclopedia of world art, radiating 5,000 years of artistic history.

Why A World of Art? Henry Sayre wrote the first edition of World of Art because he wanted to use a text in his own art appreciation course that truly represented all artists, not just the Western canon found at that time in the other texts. He also wanted a text that fostered critical thinking through looking at, talking about, and questioning works of art for his students. We are proud to present the new sixth edition of World of Art, which further strengthens these two key aspects of the text while presenting hot topics like video and time-based media.

Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage. From our paleolithic past to our digitised present, every continent and culture is covered in an articulate and well-balanced discussion. In this Seventh Edition, the text has been revised to embrace developments in archaeology and art historical research, while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years, providing a new perspective on the latest developments. The insight, elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations, half of which are now in colour. These images, together with the numerous maps and architectural plans, have been chosen to represent the most significant chronological, regional and individual styles of artistic expression.

This straightforward guide prepares students to describe, interpret, and write about works of art in meaningful and lasting terms. Designed as a supplement to Art History survey and period texts, this efficient book features a step-by-step approach to writing—from choosing a work to write about, to essay organization, to research techniques, to footnote form, to preparing the final essay. For beginners as well as more advanced students.

A fully updated new edition of this classic in-depth study of the pioneering art form of photomontage by renowned art historian Dawn Ades. Manipulation of the photograph is as old as photography itself. It has embodied and enlivened political propaganda, satire, and commercial art and helped visualize the "brave new world" of the future through surreal and fantastic images. Photomontage has been embraced by artists from the late nineteenth century to today, including the Dadaists, John Heartfield, El Lissitzky, Hannah Höch, and Alexander Rodchenko. In this updated classic, art historian Dawn Ades addresses the aesthetic, social, and historical implications of the varied manifestations and uses of manipulated photographs. Revered by artists, critics, and readers alike, this new edition is brought up-to-date to reflect technological developments and changes in visual culture, discussing the work of contemporary artists Kathy Bruce, Linder, Cold War Steve, and others. Photomontage also includes refreshed image reproductions as well as new full-color illustrations.
