book a 3.5/5 but am rounding down to 3/5 for Amazon. I really liked the first book. I liked the story and characters. The second book is more of the same but lacks the epic feel.

The second book out of six in the Codex Alera series, began two years after the events of Furies of Calderon and the plot is still immensely predictable. A lot of scenes were still too long for the pacing's own good and Butcher kept on repeating the things we already understood over and over again.
