The book has been written for 'Business Laws' Paper of the B. Com. (Hons.), Semester-I, Examination of the University of Delhi in accordance with its semester based syllabus. Its contents have been largely extracted from the author's reputed title Business Law which has gained tremendous readership over the years. This book presents the subject matter tailor-made as per the revised course structure of the Paper, to enable the students to possess a textbook that caters to their needs in full. The book has been organized into four parts, namely, Law of Contract, Law of Sale of Goods, Law of Limited Liability Partnership, and Law of Information Technology. **KEY FEATURES** • Quotes Indian and English cases at appropriate places with a view to ensure necessary authenticity and clarity on the subject. • Includes text questions and practical problems with hints and solutions in each chapter to enable students to evaluate their understanding of the subject • Explains complicated provisions in easily comprehensible language with the help of illustrations and analogies

This is the first work of its kind. Original contributions from leading academicians, practitioners and accounting associations from around the world make this handbook a unique source of information on international accounting education and certification processes. A uniform format in most of the chapters allows for easy comparison between countries. This volume documents the development of accounting education and practice at country and global levels; studies the sensitivity of accounting education and practices to the unique socio-economic needs of its environment; and allows comparative studies at a time when attempts have begun to harmonize accounting education internationally. Most importantly, it shows how educational programmes around the world are preparing future accounting professionals to deal with the rapid technological and environmental changes of the 21st century.
