The merits or otherwise of competitive tendering are frequently covered in most text books including the course study guide. Most are based on or taken from Purchasing and Materials Management, Dobler D, Burt D, and Lee L. It was expected that candidates would base their answers on the following or very similar.

~~LEVEL 4 - Chartered Institute of Procurement & Supply~~  
The model by Dobler and Burt (1996) in Fig. 4 includes different levels of processes, ranging from activities with a strategic focus to activities with a tactical/operational focus. The tactical/operational purchasing activities are part of the procurement activities, which are in turn part of the supply management activities.

Major new areas covered in this sixth edition include: global sourcing; supplier and supply-chain management; the use of cross-functional teams in new product development; commodity management and sourcing; and early purchasing and supplier involvement in specifications development.

Major new areas covered in this sixth edition include: global sourcing; supplier and supply-chain management; the use of cross-functional teams in new product development; commodity management and sourcing; and early purchasing and supplier involvement in

The best-selling textbook presents a practical framework for students to apply how firms actually manage the enterprise-wide functions of purchasing and supply in today's business environment. New chapters have been added to the beginning and end of the text, to frame the new discussion of supply chain issues. The book has also been thoroughly updated to reflect the realities of purchasing and supply management in the digital age.
