Discover how the designers of women's sporting attire navigated the worlds of fashion, function, and propriety, from the beginning of the 19th century to 1960. This book offers a stunning visual record of the evolution of women's sporting attire over nearly two centuries. With selections from Keds, Pendleton, and Spalding and garments by Coco Chanel, Claire McCardell, and Jean Patou, among many others, it features familiar names in fashion, as well as significant rediscoveries. At the intersection of the history of fashion and feminism, Sporting Fashion highlights the extraordinary impact of new technologies and evolving social mores on women's clothing for sport. It explores how the basic forms of women's sportswear we know today--from swimsuits to sneakers--were developed during a time when women were achieving more freedom. Full color illustrations of sport and leisure ensembles are included, along with magazine spreads and archival images. In thematic sections, the authors examine the ways women entered into the sporting world--from traveling to calisthenics, motorcycling to promenading. The book looks at examples of clothing that allowed women to walk freely and compete in sports previously restricted to men. It explores how designers reacted to and encouraged the growing acceptance of exposed skin at public beaches and pools--and how cold weather fashion made its way onto the slopes and ice. Never before have the garments that defined women's roles as both spectators and athletes been presented on this scale and in such detail. Published with the American Federation of Arts and the FIDM Museum at the Fashion Institute of Design & Merchandising/Los Angeles

'Business Travel and Tourism' provides a comprehensive, international overview of business tourism from both a theoretical and practical perspective. With the use of case studies from around the world, 'Business Travel and Tourism' explores a broad range of issues, including: \* The global business tourism market \* The design of business tourism facilities \* The role of the destination in business travel and tourism \* The social, economic, and environmental impacts of business tourism \* The ethical dimension of business tourism \* The marketing of business tourism products \* The impact of new technologies on the business tourism market \* How to organise successful conferences, exhibitions, and incentive travel packages Case studies include Disneyland Paris, Hong Kong, Amsterdam RAI International Exhibition and Congress Centre, Hilton, Page and Moy Marketing, Lufthansa, Air France, and Legoland UK. 'Business Travel and Tourism' is the first text to offer a comprehensive overview of the growing but neglected area of business tourism. With the use of a wide range of up-to-date case studies and major practical exercises to help students to broaden and deepen their understanding of this area of tourism, it is an invaluable text for all students on travel and tourism courses at degree and BTEC/HND level, or those taking tourism options in leisure, business studies, hospitality management or geography.

Issues for Mar. 1966-Feb. 1969 have supplements which carry the same numerical designation, but different month designations.

Given the increasing sophistication of architectural projects designed to showcase products at trade shows or to endow cultural exhibitions with a high level of visual appeal, this volume boasts imaginative, practical and low-cost designs in the field of ephemeral architecture. Featured inside Affordable Exhibition Design are exhibitions from around the world; each specifically selected for its aesthetic appeal, strength in attracting the attention of viewers, affordable construction costs, use of reusable resources and ease of implementation. Sketches, models and photographs are featured to reveal the process behind each project's development and construction, along with its spacial area, the design team who created it, its materials (both new and recycled) and cost. This comprehensive volume is an inspirational resource, and confirmation that an eye-catching exhibition can be constructed without breaking the bank.

A guide for all business to business manufacturers and suppliers marketing worldwide. This explicit guide of 'what to do and what not to do' in presenting material to the media is a valuable 'companion' for all in-house personnel with media responsibilities Peter Ullman, Publisher - Process Industry Informer.

This book provides organisations with the full understanding on why, how and when to exhibit at Trade Shows. There are tens of thousands of Trade Shows every year, offering businesses a unique opportunity to market their products and services successfully. In today's world of electronic commerce and social media, a Trade Show has become a valuable opportunity to meet face to face with your customer. This book was written by experts in the field and it includes sections covering planning, promoting, generating leads, following up, and much more. An appendix with additional useful resources is also included. The latest updates and additional current information is made available through [www.tradeshowbible.com](http://www.tradeshowbible.com)
