High-commitment— A move from external control through management systems, technology and supervision to self-control by workers or teams of workers who, because of their commitment to the organization, would exercise responsible autonomy and control in the interests of the organization. The emphasis is on intrinsic control and intrinsic rewards.

What is the distinction between high-commitment, high ...

Purpose. This study outlines and tests a high commitment model of human resource (HR) practices and its association with outcomes through a path including employee perceptions and attitudes, thereby seeking a new way of opening the so-called 'black box' between human resource management (HRM) and performance.

High commitment HR practices, the employment relationship ...

The notion of best-practice or 'high-commitment' HRM was identified initially in the early US models of HRM, many of which mooted the idea that the adoption of certain 'best' human resource practices would result in enhanced organisational performance, manifested in improved employee attitudes and behaviours, lower levels of absenteeism and turnover, higher levels of skills and therefore higher productivity, enhanced quality and efficiency.
