Control of Documented Information Explained --- ISO 9001

ISO 9001 requires

that you maintain Control of Documents (7.5), which can be a binder of papers or an enterprise-wide document management system. FREE Document Control Presentation The key is that any document critical to the delivery of your products and/or services is controlled.

ISO 9001:2015 Document Control Considerations - 9000 Store

Control of Documents.

Document control is a core process of ISO 9001, and is common to the other management standards. From ISO 9001:2015:

"Documented
information required
by the quality
management system
and by this
International Standard
shall be controlled". In
the old version of the
standard (ISO
9001:2008), it was
one of six required
documented
procedures.

Control of Documents
- Quality Systems
Toolbox

The term document
control in ISO 9001
refers to the control of
documented
information that is
required by the
standards and
guidelines. Along with
putting these
standards in place,
the documents

themselves should be controlled to fit the specified requirements. This procedure must also be documented according to ISO 9001. What are QMS documents?

7.5.2 Creating and Updating Documented Information

Document control is all to do with transferring information between relevant parties. #QHelp Document Control and ISO 9001 Any organisation wanting to achieve compliance to the ISO 9001:2008 standard are required to produce certain documents, including

a quality manual, a
quality policy, and six
specified documented
procedures[1]. Of

the ISO Central
Secretariat and other
members of the ISO
infrastructure.

ISO - ISO Templates
The ISO 9001:2015
requires that you
control your
documents, but it
grants you much
more freedom in

doing so than the previous 2008 standard did. However, there are still requirements for updating the documented information.
