as well as to international
museum professionals.

In this pioneering book,
Christopher Whitehead provides
an overview and critique of art
interpretation practices in
museums and galleries. Covering

the philosophy and sociology of
art, traditions in art history and
art display, the psychology of the
aesthetic experience and ideas
about learning and
communication, Whitehead
advances major theoretical
frameworks for understanding

interpretation from curators' and
visitors' perspectives. Although
not a manual, the book is deeply
practical. It presents extensively
researched European and North
American case studies involving
interviews with professionals
engaged in significant cutting-

the student approaching Museum
and Gallery Studies for the first
time. Taking a global view, it
covers the key ideas, approaches
and contentious issues in the
field. Balancing theory and
practice, the book address
important questions such as:

What are museums and galleries?
Who decides which kinds of
objects are worthy of collection?
How are museums and galleries
funded? What ethical concerns do
practitioners need to consider?
How is the field of Museum and

user-friendly text is an essential
read for anyone wishing to work
within museums and galleries, or
seeking to understand academic
debates in the field.

Museums have been active in
shaping knowledge over the last

six hundred years. Yet what is
their function within today's
society? At the present time,
when funding is becoming
increasingly scarce, difficult
questions are being asked about
the justification of museums.
Museums and the Shaping of

Online Library Museum

Knowledge presents a critical
survey of major changes in
current assumptions about the
nature of museums. Through the
examination of case studies,
Eilean Hooper-Greenhill reveals a
variety of different roles for
museums in the production and

shaping of knowledge. Today,
museums are once again
organising their spaces and
collections to present themselves
as environments for experimental
and self-directed learning.

We have long recognized that
