A new kind of career playbook for a new era of feminism, offering women a new set of rules for professional success: one that plays to their strengths and builds on the power they already have. Weren ' t women supposed to have " arrived "? Perhaps with the nation ' s first female President, equal pay on the horizon, true diversity in the workplace to come thereafter? Or, at least the end of " fat-shaming " and " locker room talk " ? Well, we aren ' t quite there yet. But does that mean that progress for women in business has come to a screeching halt? It ' s tr that the old rules didn ' t get us as far as we hoped. But we can go the distance, and we can close the gaps that still exist. We just need a new way. In fact, there are many reasons to be optimistic about the future, says former Wall Street powerhouse-turned-entrepreneur Sallie Krawcheck. That ' s because the business world is changing fast – driven largely by technology - and it ' s changing in ways that give us more power and opportunities than ever...and even more than we yet realize. Success for professional women will no longer be about trying to compete at the men ' s version of the game, she says. And it will no longer be about contorting ourselves to men ' s expectations of how powerful people behave. Instead, it ' s about embracing and investing in our innate strengths as women - and bringing them proudly and unapologetically, to work. When we do, she says, we gain the power to advance in our careers in more natural ways. We gain the power to initiate courageous conversations in the workplace. We gain the power to forge non-traditional career paths; to leave companies that don ' t respect our worth, and instead, go start our own. And we gain the power to invest our economic muscle in making our lives, and the world, better. Here Krawcheck draws on her experiences at the highest levels of business, both as one of the few women at the top rungs of the biggest boy ' s club in the world, and as an entrepreneur, to show women how to seize this seismic shift in power to take their careers to the next level. This change is real, and it ' s coming fast. It ' s time to own it.

Never before published, an extraordinarily inspiring and radical conversation between Howard Zinn and PBS/NPR journalist Ray Suarez, wherein American history is turned upside down—published to coincide with the tenth anniversary of Zinn's death T ruth Has a Power of Its Own is an engrossing collection of never-before-published conversations with Howard Zinn, conducted by the distinguished broadcast journalist Ray Suarez in 2007, that covers the course of American history from Columbus to the War on Terror from the perspective of ordinary people—including slaves, workers, immigrants, women, and Native Americans. Viewed through the lens of Zinn's own life as a soldier, historian, and activist and using his paradigm-shifting People's History of the United States as a point of departure, these conversations explore the American Revolution, the Civil War, the labor battles of the nineteenth and twentieth centuries, U.S. imperialism from the Indian Wars to the War on Terrorism, World Wars I and II, the Cold War, and the fight for equality and immigrant rights, all from an unapologetically radical standpoint. Longtime admirers and a new generation of readers alike will be fascinated to learn about Zinn's thought processes, rationale, motivations, and approach to his now-iconic historical work. Suarez's probing questions and Zinn's humane (and often humorous) voice—along with his keen moral vision—shine through every one of these lively and thought-provoking conversations, showing that Zinn's work is as relevant as ever.

This book is about feelings, and the ways that we, as individuals and as a culture, have numbed ourselves against them. It is about unleashing the possibility of conscious feelings to re-make our lives into what really matters to us. The Power of Conscious Feelings introduces readers to the concept of the "personal numbness bar"—a measure set high by modern culture as a way of keeping everything "cool," under control, and consequently out of touch. This book provides the insight and the means for lowering that numbness bar. "You can feel more," the author asserts. You can regain the intelligence and energy of your feelings, so long denied and dressed up to appear acceptable. "Being cool," Callahan states, "allows you to look the other way about torture, invasion, pollution and injustice," and to accept the generic malaise that characterizes so many relationships. The central framework of the book is built with the 16n Distinctions for Consciously Feeling, including: " Learning the potent difference between thoughts and feelings, which most people confuse " Sorting out feelings (based in present) from emotions (based in the past or in somebody else's life) " Fully allowing that feelings are absolutely-neutral energy and information, neither good nor bad, neither positive nor negative. Each chapter is enriched with THOUGHTMAPS-clear diagrams of ways we presently think and ways we could possibly think-and supported by an abundance of practical experiments to try. The Power of Conscious Feelings is so much more than a book of self-help or inspiration. Ultimately, it is about our connection with and responsibility for the fate of the Earth. When we are no longer numb, we are freed from solitary confinement in our private world of thoughts and beliefs. We emerge, already connected with other human beings, connected in the world of feelings we all have in common. This book actually guides the reader through four distinct evolutionary stages: from Personal, to Relational, to Transformational, to Cultural, in showing us how to use our adult feelings as the fuel for living our destiny as creators of sustainable culture. Choosing numbness was probably unconscious for most of us. But, Callahan is committed to showing us, step by step, in this moment, how we can change the mind and learn to consciously feel.

By changing our thoughts, we can change our lives. By changing our lives, we can change the world. The power to accomplish these things is within us; it is love. Love is what created us and what we return to. Love is the real power of the universe. Own Your Power: Day by Day is a guidebook to spiritual transformation. It teaches valuable spiritual truths and skillslearning to listen to our higher selves rather than our ego selves, accessing the part of us that is connected to unconditional love rather than fear, accepting the importance of forgiveness, and understanding the importance of the invisible energy field that surrounds us.
