Eakins provide a practical introduction to prepare students for today's changing landscape of financial markets and institutions. A unifying framework uses core principles to organize students' thinking then examines the models as real-world scenarios from a practitioner's perspective. By analyzing these applications, students develop the critical-thinking and problem-solving skills necessary to respond to challenging situations in their future careers. Although this text has undergone a major revision, the Eighth Edition retains Mishkin/Eakins' hallmark pedagogy that make it the best-selling textbook on financial markets and institutions. This program will provide a better teaching and learning experience—for you and your students. Here's how: Organize Learning with a Unifying Analytic Framework: Core principles organize students' thinking and then examine the models as real-world scenarios from a practitioner's perspective. Emphasis Critical Thinking with Key Features: Examples and exercises allow students to put into practice the concepts that they are learning. Focus on Personal Finance is a brief, 14-chapter book, covering the critical topics in Personal Finance courses. This 4-color, paperback text is designed and written to appeal to a range of ages, life situations, and levels of financial literacy. A unique aspect of this text is its active approach. This text will not only get your students thinking about their current situation and financial goals, but also encourage them to put these in writing to use as a guide and revise over the course of their lives. New for this edition, sections are oriented around specific action-items for students. The more a student involves themselves in the assessments, exercises and worksheets provided, the more they will discover about their current habits and how to improve them for greater financial freedom. Students have many different financial goals, but none are more important than having a basic understanding of financial issues and peace of mind with regard to their decisions. The ultimate goal of Focus on Personal Finance is to get students to this point as a first step to achieving the many financial goals they have set for themselves.
