Manufacturers will often provide an official manual for a product to provide assistance to its owners or users: cars, for example, usually come with an owner's manual, machinery with an operator's manual, and official documentation for Unix programs with manual pages. Guide is a more generic term. Whereas manual implies a written document, one that could be a booklet for a video game or a large book for a complex product such as a car, a guide can be just a card, or in another medium ...

What are the differences between "manual", "guide" and ...

A guide provides to the point, concise, user specific information. Also known as (Synonyms) Handbook, textbook, workbook, guidebook, guide, reference book, etc. Catalog, directory, guidebook, handbook, manual, key, reference key, etc. Purpose.
