Sociolinguistics: A Very Short Introduction (Very Short ...

Sociolinguistics: A Very Short Introduction deals with the social life of language: language in its sociocultural context. It draws from sociolinguistics, the sociology of language, and psycholinguistics. It explains the differential social evaluations of languages and dialects, how names (and naming) are much more than simple designations, and why some languages come to dominate others.

with the social life of language: language in its sociocultural context. The field ranges from micro-analyses to broadly-based policy and planning undertakings. As such, this book draws from sociolinguistics, the sociology of language, and psycholinguistics. The relationship between language and identity - whether of an individual or a group - is a strong thread linking all the topics covered in the book.
