Key Ideas The goal of the analysis phase is to truly understand the requirements of the new system and develop a system that addresses them -- or decide a new system isn't needed. The System Proposal is presented to the approval committee via a system walk-through. Systems analysis incorporates initial systems design.

~~Systems Analysis and Design~~

System analysis is conducted for the purpose of studying a system or its parts in order to identify its objectives. It is a problem solving technique that improves the system and ensures that all the components of the system work efficiently to accomplish their purpose. Analysis specifies what the system should do.
