The PDCA method is based on four steps which make up the acronym of its name. The steps are specifically plan, do, check, and act. Some variations of the method add an extra fifth step preceding all others observe but the traditional version is based on just the four main steps. Whether you're going to implement the modified five-step version or go for the original is up to you, but understanding the meaning of each step is critical in implementing PDCA correctly.

What goes on inside your grant reviewer's head? Understanding this is the key to avoiding rejection and getting your next grant funded. You may wonder...What is my reviewer really looking for? Did they reject my grant just because of politics? Why did one reviewer love my grant and another one hate it? How can I revise my grant to make it more fund-able? The answers lie within a four step process reviewers go through when they read your grant proposal - a process most reviewers aren't even aware they're doing. If you gloss over one of these steps - or worse, leave it out all together - your grant will be rejected, and you may get cryptic reviews back that don't explain why it was rejected or help you avoid another rejection. Four Steps to Funding gives you the simple process that will clarify your thinking, organize your proposal, and address reviewer objections before you submit your grant. Going far beyond the typical "word-smithing" and fill-in-the-blank examples of other grant writing books, 4 steps to funding gets into the mind of your reviewer and provides techniques for persuading him/her of the value of your work, your own credibility, and your approach. Written in an easy to read, engaging style, the concepts in this book are critical, for writing NIH or NSF grants. However, the concepts are easily applicable to Foundation, SBIR, or even business or non-profit proposals. It is your turn to crack the code, by learning the four steps that your next grant proposal must have in order to succeed. Your proposal will go beyond providing the facts and will get your reviewer excited about your work, and ready to fund it!

Four Steps to Flow introduces a groundbreaking way of approaching life. Challenging our fundamental understanding of head versus heart, it offers an innovative path to a meaningful life lived in a state of continuous flow. Follow your head, and you will forever argue with yourself about whether you aremaking the right decision. Follow your heart, and you will stew in emotional turmoil. In both cases, the name of the game is confusion, anxiety, and drama. Three life-changing crises shocked business tycoon Feisal Alibhai into the realization that success isn't enough. The key to leading a fulfilling life is to engage both head and heart by taking four simple steps. "Flow takes you on a spiritual journey where Buffet meets Siddhartha with perfect balance. This is the new Monk 2.0." - Jason Axmith, Founder Cosecha Imports, former CEO of Robin Sharma International "One of those rare adventures others need to hear about to inspire them to uncover within themselves potential they have no clue exists." - Dr. Shefali Tsabary, Author of The Awakened Family. "Having had the privilege to be a dear friend to Feisal through many of the peaks and troughs in his life that he has discussed in this book I am enthralled with the way that he has managed to simplify and articulate one of the most essential keys to a meaningful life.....the alignment of head and heart. A counterintuitive theory like this one is not always easy to understand and even more so difficult to digest. Feisal's life examples in bite size portions simplify the entire idea allowing for realistic action and execution. The reader, if willing and open, will see the barriers blocking their true self slowly unravel." - Adnan Hassanali, ALIEL Managing Director "Rarely have I seen a person so courageously dedicated to his own healing. It's my hope that readers are so inspired by reading his journey as I was in witnessing it." - Dr. Habib Sedeghi, Author of The Clarity Cleanse "The new generation should be aware of the suffering of their ancestors. This awareness will provide them with drive and clarity that complete focus on one's own health is the only key to happiness and success." - Alain Spruyt, CEO Driesassur feisal alibhai, a serial entrepreneur who has lived on five continents and foundedmore than a dozen companies, is today the founder and CEO of Qneticare, theworld's first Family Health Office. Working with families across the globe, Feisal shares a revolutionary approach to health, wellbeing, and the art of living in flow. For more information, visit www.qneticare.com.
