Get this from a library! The menino : a story based on real events. Isol., Elisa Amado --"When the new baby arrives, both the baby and the parents are in for a steep learning curve. In this book, born out of personal experience, internationally renowned author/illustrator Isol brings us a dual narrative and guide. For babies, there's a rich range of images of babies and all their functions to look at. From crying, to nursing, to peeing and poeing, to looking, to hearing, to deciding that this weird new world they've entered is worth staying in (because they finally recognize that in every grown-up they see there is a former baby), there are hours of fun and amusement, since babies love nothing better than looking at and talking about themselves. For parents, this is a wonderful exploration of the new world this stranger-baby brings with him or her. Amusingly written, the text presents in a humorous, wry way all the facets of the new baby's reality. A great gift for new parents both before and after baby is born.
Petit wonders why some things that he does, like playing with his dog, make him a good boy, while others, like pulling girl's hair, make him bad, and how it is that he can be both bad and good

"Darwin's Fox and My Coyote is a sympathetic but unsentimental examination of animals in their habits. Field biology spearheaded the animal conservation movement by creating a new awareness of wild animals and bringing to public consciousness their needs and vulnerabilities. The conservation movement has fostered a general sense that land is slurring out from under wild, animals at a pace that threatens their very survival. But if that threat is known, it is little understood. Few realize that animals are becoming extinct at rates that far exceed the ability of scientists to help stabilize their populations. Menino confronts the public attitudes that reinforce these calamitous realities and thwart animal conservation efforts."--BOOK JACKET.
A deeply affecting debut novel set in Trinidad, following the lives of a family as they navigate impossible choices about scarcity, loyalty, and love WINNER OF THE DESMOND ELLIOTT PRIZE □ "Golden Child is a stunning novel written with force and beauty. Though true to herself, Adam's work stands tall beside icons of her tradition like V.S. Naipaul."—Jennifer Clement, author of Gun Love Rural Trinidad: a brick house on stilts surrounded by bush; a family, quietly surviving, just trying to live a decent life. Clyde, the father, works long, exhausting shifts at the petroleum plant in southern Trinidad; Joy, his wife, looks after the home. Their two sons, thirteen years old, wake early every morning to travel to the capital, Port of Spain, for school. They are twins but nothing alike. Paul has always been considered odd, while Peter is widely believed to be a genius, destined for greatness. When Paul goes walking in the bush one afternoon and doesn't come home, Clyde is forced to go looking for him, this child who has caused him endless trouble already, and who he has never really understood. And as the hours turn to days, and Clyde begins to understand Paul's fate, his world shatters—leaving him faced with a decision no parent should ever have to make. Like the Trinidadian landscape itself, Golden Child is both beautiful and unsettling, a resoundingly human story of aspiration, betrayal, and love. Praise for Golden Child "In fluid and uncluttered prose, Golden Child weaves an enveloping portrait of an insular social order in which the claustrophobic support of family and neighbors coexists with an omnipresent threat from the same corners."—The New York Times Book Review "[A] powerful debut. . . . a devastating family portrait—and a fascinating window into Trinidadian society."—"People "[An] emotionally potent debut novel . . . with a spare, evocative style. Adam (a Trinidad native) evokes the island's complexity during the mid-'80s, when the novel is mostly set: the tenuous relationship between Hindus like Clyde's family and the twins' Catholic schoolmaster, assassinations and abductions hyped by lurid media headlines, resources that attract carpetbagging oil companies but leave the country largely impoverished."—USA Today
Boston's late, revered mayor explains the power behind the city's dramatic success — and its lessons for Washington power brokers. When Thomas Menino stepped down from office as one of the longest-serving major-city mayors in the nation's history, he was among the most popular politicians in modern memory. In <i>Mayor for a New America</i> , Menino gives a play-by-play look at how he managed to wield political influence while staying fiercely loyal to the interests of the people he was elected to serve. The unassuming guy from Boston's Hyde Park neighborhood was an unlikely politician. He'd been a backstage campaign workhorse whose career nearly ended the second he stepped into the spotlight, tongue-tied. Although not a fancy talker, Mayor Menino took to the details of running the city he loved. By taking care of the small stuff — fixing potholes, cleaning up parks, plowing the streets quickly after snowstorms — he won the public's trust to deliver on the big issues. He had a progressive agenda and was forward thinking in his support of an innovation economy and a champion of gay rights. He also held fast to the values of his childhood — good schools, a growing middle class, and close-knit, welcoming communities. In this candid look back at a career that spanned the busing crisis of the 1970s, the remarkable resurgence of the neighborhoods, and the city's extraordinary response to the Boston Marathon bombing, Menino tells behind-the-scenes stories and gives a master class in urban politics. And his proven, people-focused track record provides inspiration for a dysfunctional Washington to actually get things done — just like he did in Boston.

Maftu was afraid of the sea. It had taken his mother when he was a baby, and it seemed to him that the sea gods sought vengeance at having been cheated of Mafatu. So, though he was the son of the Great Chief of Hikueru, a race of Polynesians who worshipped courage, and he was named Stout Heart, he feared and avoided the sea, till everyone branded him a coward. When he could no longer bear their taunts and jibes, he determined to conquer that fear or be conquered-- so he went off in his canoe, alone except for his little dog and pet albatross. A storm gave him his first challenge. Then days on a desert island found him resourceful beyond his own expectation. This is the story of how his courage grew and how he finally returned home. This is a legend. It happened many years ago, but even today the people of Hikueru sing this story and tell it over their evening fires.
A funny story about a seemingly impossible child and his desperate parents, who enlist the help of a specialist with unexpected results. . . . Toribio is two years old and his parents love him very much, but some days, taking care of him feels like an impossible task. He won't sleep, makes a fuss when eating, splashes his bath water everywhere, and refuses to use his potty. At the end of the day, Toribio's parents are exhausted. So when they see an ad for a specialist who can solve any type of problem, his desperate parents make an appointment right away. Mrs. Meridien's methods deliver overnight results, but her solution isn't quite what they had in mind ...
