Mentre un furioso incendio devasta i canyon alle spalle di Malibu, Matt Lowell corre sulla spiaggia deserta nel disperato tentativo di raggiungere la sua casa e di salvare il suo cane. Lungo la battigia fa una scoperta sconvolgente. Quello che in distanza gli pareva il corpo di un pellicano portato dalle onde, è in realtà una bambina abbandonata appena nata. Quando, dopo qualche tempo, la polizia trova sul ciglio di una strada un cadavere, probabilmente quello della madre adolescente della piccola, tutto coperto di fiori selvatici, Matt prova un inspiegabile senso di giustizia verso quelle vittime innocenti e sconosciute. Vuole scoprire cosa è successo, una decisione che metterà in moto un'irreversibile catena di violenze portando alla scoperta di un atroce traffico.

Hoewel enorm invloedrijk in Duitstalig Europa, heeft de conceptuele geschiedschrijving (Begriffsgeschichte) tot nu toe weinig aandacht in het Engels gekregen. Dit genre van intellectuele geschiedschrijving verschilt van zowel de Franse geschiedschrijving van

mentalités als de Engelstalige geschiedschrijving van verhandelingen door het concept. Aan de hand van praktische voorbeelden in de geschiedschrijving wordt deze vorm toegelicht door Bram Kempers, Eddy de Jongh en Rolf Reichardt.

A Precarious Game is an ethnographic examination of video game production. The developers that Ergin Bulut researched for almost three years in a medium-sized studio in the U.S. loved making video games that millions play. Only some, however, can enjoy this dream job, which can be precarious and alienating for many others. That is, the passion of a predominantly white-male labor force relies on material inequalities involving the sacrificial labor of their families, unacknowledged work of precarious testers, and thousands of racialized and gendered workers in the Global South. A Precarious Game explores the politics of doing what one loves. In the context of work, passion and love imply freedom, participation, and choice, but in fact they accelerate self-exploitation and can impose emotional toxicity on other workers by forcing them to work endless hours. Bulut argues that such ludic discourses in the game industry disguise the racialized and gendered inequalities on which a profitable transnational industry thrives. Within capitalism, work is not just an economic matter, and the political nature of employment and love can still be undemocratic even when based on mutual consent. As Bulut demonstrates, rather than considering work simply as a matter of economics based on trade-offs in the workplace, we should consider the question of work and love as one of democracy rooted in politics.

Examines the two-billion-dollar business of smuggling marijuana and cocaine into the United States and traces the emergence of a new criminal elite made up of blacks, Cubans, South Americans, and disillusioned young adventurers

An aging California vintner is determined to protect her empire from a hostile family takeover and the dark secrets that could destroy everything she loves At age seventy-four, Assaria "Sari" LeBaron is still a force to be reckoned with. For decades, she has run the Baronet Vineyards, one of California's largest and most successful wine producers, maintaining sole control even after a suspicious accident left her permanently crippled. And now, in her golden years, the formidable Sari refuses to relinquish power to her own children, a decision that has only served to increase tensions among her already emotionally damaged family members. But Sari's ambitious son, Eric, is no longer willing to play a subservient role, and has begun working behind the scenes to take over the business, forming alliances within and outside the family in his effort to dethrone the unyielding matriarch. The most difficult fight of Sari LeBaron's long and eventful life has begun; a heartbreaking struggle that will pit loved one against loved one and expose long-hidden secrets that could destroy both Sari's business and her family. The LeBaron Secret is another riveting excursion into a world of privilege that Stephen Birmingham knows intimately. It is a breathtaking tale of secrets and lies, shady double-dealings, family skeletons, and the inner turmoil of the fabulously wealthy as only the bestselling author of "Our Crowd" and The Auerbach Will could tell it.

"Fast, hard, and effortlessly authentic—both lead character Eric Steele and author Sean Parnell are the real deal."—Lee Child "An exciting, action-packed debut! Bristling with intrigue, deceit, power, and treason—once you pick this book up, you will NOT be able to put it down. Sean Parnell has knocked it out of the park!"—Brad Thor The New York Times bestselling author of Outlaw Platoon makes his fiction debut with this electrifying military thriller—a gripping tale of action, suspense, and international intrigue that introduces a compelling new hero, Eric Steele. Eric Steele is the best of the best—an Alpha—an elite clandestine operative assigned to a US intelligence unit known simply as the "Program." A superbly trained Special Forces soldier who

served several tours fighting radical Islamic militants in Afghanistan, Steele now operates under the radar, using a deadly combination of espionage and brute strength to root out his enemies and neutralize them. But when a man from Steele's past attacks a military convoy and steals a nuclear weapon, Steele and his superiors at the White House are blindsided. Moving from Washington, DC, to the Middle East, Europe, and Africa, Steele must use his considerable skills to hunt this rogue agent, a former brother-in-arms who might have been a friend, and find the WMD before it can reach the United States—and the world is forever changed.

Providing close readings and imaginative analyses of the entire literary output of one of twentieth-century France's most important Jewish writers, Abecassis presents here a major work of literary scholarship, as well as a broader study of the reception and influence of Jewish thought in French literature and philosophy.

"The Fight shines a much needed light on the troubling games DC politicians and insiders play with the American people." -Sean Hannity "The Fight is a lesson plan for fighting back against the Washington DC political machine." - Mark Levin In *The Fight*, Dan Bongino picks up the story where his New York Times bestselling book *Life Inside the Bubble* ends to tackle current political and security issues and offer new solutions. From Hilary's emails to the security failings at the White House (including the drone crash and the fence jumper); from Charlie Hebdo to Bowe Bergdahl--the author examines how our current administration has allowed our security efforts to lapse both at home and abroad. He also offers solutions to the growing terrorist threat and how we can protect American citizens while also deconstructing what's wrong with our political process and what his experience running for office has taught him. As a former member of the elite Presidential Protection Division who served three Presidents, Bongino is uniquely qualified to provide a view from behind the curtain to warn readers about the political system that is failing them, and the security future that won't protect them. The majority of Americans only come into contact with security when they fly or enter their workplace. They are rarely able to become acquainted with the politicians they know from robo-calls and TV ads. Bongino has experienced the inner-workings of the national security apparatus and the failed political theater that we all feel but rarely understand. Using a mix of current events, an insider's analysis, and tales from his time protecting the president, he shows where clear and foreseeable leadership failures from our current administration led to grave consequences. From a broken political process to a president who consistently misreads the American people, he shows us where America has gone wrong and how we can fight back.

As the United States is consumed with the scandal involving President Clinton and Monica Lewinsky, many citizens have wondered why a man at the apex of his career would endanger himself and his family for the sake of a few cheap thrills. Here, Simon (sociology, U. of Calif., Berkeley and San Jose St
