This amazing 160-page volume is the perfect guide to space and outer space for children aged seven plus. It is packed with colorful illustrations, step-by-step sequences, and the latest photography to keep children engaged and entertained. Arranged thematically into key areas, the concise text is clear, accurate, and perfectly pitched, making this an unbeatable resource for home and school. Plus, a glossary and index are included along with a list of websites for further learning.

Join Sally Ride, the first American woman in space, who will be your guide as you explore the mysteries of the universe. Look at planets, stars, meteors, comets, black holes, and our very own planet Earth. Find out what it takes to train and be an astronaut and discover what it feels like to break through Earth's atmosphere. Learn what's inside the space shuttle and investigate the other planets and moons in our solar system. Finally, consider what surprises other galaxies might hold in this dynamic look at the world of space exploration.

From the best-selling and compelling Basher, comes a book that shines its light into out-of-this-world beings who make the universe tick. Learn about the amazing research that is revolutionizing space exploration, from the pioneering space crafts and equipment known as 'Space Aces' that have been used to delve into deep-space exploration to the scientists known as 'The Outerplanetary Mob' that have not only taken voyages to space and back but have contributed to our understanding of the universe. Space Exploration is a compelling guide
